What NEET 2025 Cancellation Means for You

Test Student, your score of 520 as a General candidate targeting MBBS puts you in a specific bracket. With NEET 2025 cancelled, this window is an opportunity — not a setback. Here is your complete action plan.

Drop vs Repeat — Our Recommendation

Given 1 year drop of preparation and a score of 520, a focused 30-day revision before the re-exam is strongly recommended. Targeted work in weak areas can meaningfully improve your position without a full year drop.

If your current score of 520 stands (General category)

College Name	State	Type	Cutoff	Seats
--------------	-------	------	--------	-------

Based on your score, no direct matches found. See Re-exam Scenarios on the next page.

Focus on the 30-day plan to improve your score for the re-exam.

What improves if you study for 30 days before the re-exam

Current: 520

- Focused revision needed to unlock options in this range.

Improved: 560

- Focused revision needed to unlock options in this range.

Best case: 600

- Focused revision needed to unlock options in this range.

Week-by-week guide to maximise your re-exam score

Week	Focus	Daily Hours	Subjects
Week 1	Diagnose weakest topics from each su..	6h/day	Biology, Physics
Week 2	Intensive revision of high-weightage..	7h/day	Human Physiology, Genetics
Week 3	Physics and Chemistry formula consol..	8h/day	Physics, Organic Chemistry
Week 4	Full mock tests, error analysis, exa..	8h/day	Full Syllabus, Mock Tests

Other strong medical careers worth considering

BAMS (Ayurvedic Medicine)

5.5-year government-recognised medical degree with growing demand.

Why consider: Lower cutoff than MBBS, same clinical focus, excellent career scope.

BSc Nursing

4-year degree with guaranteed hospital and international career paths.

Why consider: Strong job market, good income, abroad opportunities
